FEEDERS FOR LOGS, SLABS & SAWMILL RESIDUES

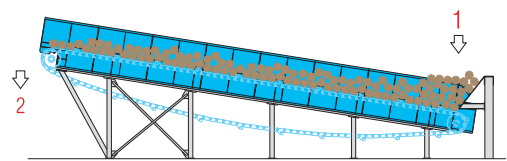

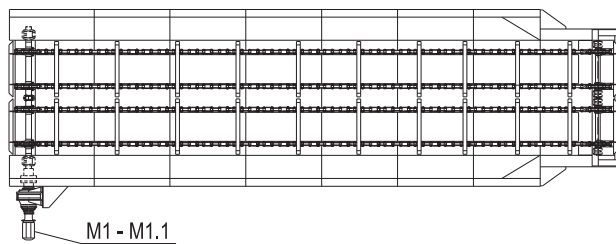

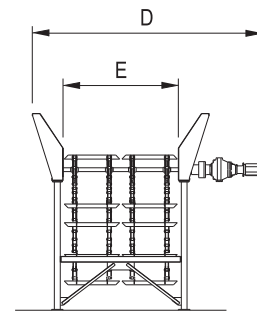

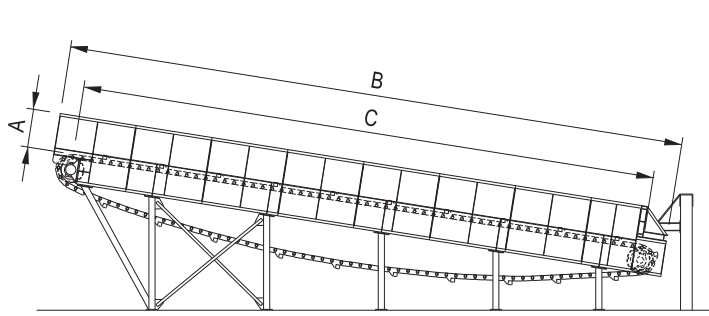

CHAIN-PLATE FEEDERS – T4K

TECHNICAL FEATURES

• Front shaft fitted with direct transmission • Rear shafts with chain tensioning devices • Transportation bed based on: reinforced bottom plate for material load up to 2.000 kg/m² – four strong chains fitted with cross profiles • Option for material containment walls.

BENEFITS

• Easy loading of wood logs of many sizes: from crane – from front loader – directly from tipper trucks • Working speed freely adjustable by using frequency converter • High performance • Low maintenance cost.

1 = FEEDING
2 = DISCHARGE

M1 = MAIN MOTOR
M1.1 = FAN FOR COOLING
