FEEDERS FOR BULKY MATERIALS

CHAIN-PLATE FEEDERS – TTK.230 / TTK.350

FOR URBAN FOREST MATERIAL

TECHNICAL FEATURES

• Very strong double-roller chain feeder • Moving bed equipped with transverse metal plates, overlapped and sealed by profiled shape • Front shaft fitted with direct transmission • Rear shaft fitted with chain tensioning devices • Self cleaning system with: closed bottom – rear reclaim screw conveyors – reclaim belt conveyor • Automatic lubrication device for chains • High containment walls.

BENEFITS

• Easy loading of urban forest material, such as pallets, crates, cable drums, construction material, demolition furniture, recycled particleboards, etc., bulky or pre-crushed • Very efficient feeding of pre-crushers (Alligator) or Crushers (Tiger) • Except for front loader or crane, operators are required from time to time only • Working speed freely adjustable by using frequency converter • Automatic cleaning and lubrication • High performance • Low maintenance cost.
