IMAL  
PAL  
GROUP

## ROLL SCREENS

### STEPPER SCREEN

PATENTED

#### TECHNICAL FEATURES

• New patented screening principle from PAL • Self-cleaning screening system • High production throughput, adjustable by inverter • One machine only combining a ballistic and aeraulic starscreening • Hydraulically adjustable machine inclination.

#### BENEFITS

• (Easily) settable selection size • Small footprint machinery • Wide range of operation according to the material type • Low maintenance costs.
